## PROFESSIONAL SUMMARY

Product Team Lead and Quality Engineering professional with 3+ years of experience leading software quality initiatives, automation strategy, system analysis, and product delivery for **enterprise omnichannel communication platform** supporting WhatsApp Official API, WhatsApp Web, Facebook Messenger, Instagram, Telegram, Email, Live Chat, Broadcast, Ticketing, SLA Management, and Customer Service Operations. Experienced in defining product requirements, writing Product Requirement Documents (PRDs), conducting end-to-end impact analysis, designing workflows, and driving collaboration between Product, Engineering, QA, and Customer Support teams. Proven ability to reduce defect leakage by 70%, scale automation frameworks, standardize product documentation, and ensure successful releases while maintaining a strong focus on business value, usability, and system reliability.

## TECHNICAL SKILLS

| Category | Skills |

|-----|-----|

**\*\*Automation\*\***: Cypress, Playwright

**\*\*API Testing\*\***: Postman, REST API

**\*\*Performance\*\***: K6

**\*\*Programming\*\***: JavaScript

**\*\*Database\*\***: MongoDB, MySQL, PostgreSQL

**\*\*Version Control\*\***: Git, GitHub, GitLab

**\*\*CI/CD\*\***: GitHub Actions, GitLab CI

**\*\*Software\*\***: Jira, Figma, MongoDB Compass, Postman

**\*\*Methodology\*\***: Agile, Scrum

## PROFESSIONAL EXPERIENCE

### Product Team Lead | System Analyst | QA Lead

**\*\*PT Lincih Cipta Harapan (formerly PT Digital Laskar Pelangi / Orderfaz)\*\***

Bandung, Indonesia | Jun 2024 – Present

#### **\*\*Product & System Analysis\*\***

- Gathered business requirements directly from stakeholders and translated them into detailed Product Requirement Documents (PRDs) covering enterprise ticketing, broadcast, SLA, RBAC, widget, contact management, and automation features.
- Produced feature workflows, business rules, acceptance criteria, and technical documentation for Engineering and QA teams.
- Designed business flows, sequence diagrams, and system workflows to bridge communication between business stakeholders and engineering teams.
- Collaborated with stakeholders to define feature scope, prioritize product backlog, and balance business requirements with technical feasibility.

#### **\*\*Impact Analysis & Release Management\*\***

- Conducted comprehensive impact analysis across frontend, backend, APIs, database, notification services, websocket, broadcast, team inbox, and third-party integrations before feature implementation.
- Planned release scope and coordinated regression testing across multiple product modules before production deployment.
- Participated in sprint planning, sprint review, and backlog refinement to ensure alignment between product goals and delivery execution.

#### **\*\*QA Leadership & Automation\*\***

- Led QA initiatives while coordinating Product, Engineering, and Customer Support teams throughout the software development lifecycle.
- Defined regression testing strategy, reducing defect leakage by 70%.
- Built scalable Cypress and Playwright automation frameworks for UI and API testing, featuring reusable commands, authentication handling, session management, fixtures, API helpers, and data-driven test execution.
- Integrated automated testing into CI/CD pipelines (GitLab CI, GitHub Actions), monitored pipeline results, and debugged failures.
- Established test strategy covering regression scope, smoke, sanity, and release testing.

#### **\*\*Technical Validation\*\***

- Reviewed API endpoint design, request/response schemas, and backward compatibility during feature development.
- Performed database validation using MongoDB and MySQL to ensure data integrity across system changes.
- Supported troubleshooting and root-cause analysis through log analysis, issue reproduction, and collaborative debugging with developers.

## Quality Assurance Engineer

**\*\*PT Rahmat Tuhan Lestari\*\***

Bandung, Indonesia | Dec 2021 – Jan 2023

- Performed manual and automation testing for software releases.
- Designed and executed test cases for new features.
- Conducted API testing to validate backend services.
- Collaborated with developers to ensure feature stability.
- Handled customer issues and provided technical support.

## Administrative / Customer Service Staff

**\*\*Klinik Utama Elim\*\***

Bandung, Indonesia | Mar 2019 – Mar 2021

- Handled customer inquiries and operational workflows.
- Managed financial transactions and ensured accuracy.

## Design Editor

**\*\*Mentari Offset\*\***

Bandung, Indonesia | Feb 2017 – Feb 2019

- Prepared and validated print layouts for production.
- Ensured design accuracy and quality control.

## KEY PROJECTS

### Enterprise Omnichannel Communication Platform

Led product analysis, PRD writing, and QA execution for an enterprise-scale omnichannel platform supporting WhatsApp Official API, WhatsApp Web, Facebook Messenger, Instagram, Telegram, Email, Live Chat, Broadcast, Ticketing, and SLA Management.

### QA Automation Framework — SixV2 Automation

<https://github.com/flinct/sixV2Automation>

Built scalable Cypress and Playwright automation frameworks with reusable commands, authentication handling, session management, fixtures, API helpers, and CI/CD integration for continuous testing.

### AI-assisted QA Workflow

Designed AI-assisted workflows for PRD analysis, test case generation, impact analysis, documentation, and bug investigation.

## KEY ACHIEVEMENTS

- Reduced defect leakage by 70% through improved regression testing strategy and structured release planning.
- Built scalable Cypress and Playwright automation frameworks that significantly reduced repetitive manual regression testing.
- Standardized Product Requirement Documents (PRDs) to improve communication between Product, Engineering, and QA teams.
- Established impact analysis workflow before feature implementation, reducing regression risk across API, database, notification, websocket, and third-party systems.

## EDUCATION

**\*\*Bachelor of Information Systems (In Progress)\*\***

Universitas Terbuka (UT) | 2019 – Present

## LANGUAGES

- **\*\*Indonesian\*\*** — Professional Working Proficiency
- **\*\*English\*\*** — Professional Working Proficiency
