PROFESSIONAL SUMMARY

Product Team Lead and Quality Engineering professional with 3+ years of experience leading software quality initiatives, automation strategy, and product delivery. Experienced in defining product requirements, conducting impact analysis, improving development workflows, and driving collaboration between Product, Engineering, QA, and Customer Support teams. Proven ability to reduce defect leakage by 70%, scale automation frameworks, and ensure successful releases for enterprise-scale chat and ticketing platforms while maintaining a strong focus on business value, usability, and system reliability.

TECHNICAL SKILLS

Testing	Automation Testing (Cypress), Manual Testing, Functional Testing, Regression Testing, API Testing (REST), Performance Testing, Usability Testing, End-to-End Testing
Product & Delivery	Product Requirements, Requirement Review, Impact Analysis, Release Planning, Cross-Functional Collaboration, Agile / Scrum
Programming	JavaScript
Tools & Technologies	Cypress, Postman, Git, SQL
CI/CD	GitLab CI / GitHub Actions
Database	MySQL / PostgreSQL

KEY PROJECTS

QA Automation Framework — SixV2 Automation

<https://github.com/flinct/sixV2Automation>

- Built end-to-end automation testing framework using Cypress for web application testing.
- Designed reusable test structure with custom commands and modular test cases.
- Implemented automated test scenarios covering critical user flows and regression testing.
- Structured test suites for scalability and maintainability across multiple features.
- Enabled faster test execution and reduced manual testing effort through automation.
- Designed test workflow to support CI/CD integration for continuous testing.

KEY ACHIEVEMENTS

- Reduced defect leakage by 70% through improved regression testing strategy.
- Built and scaled automation testing framework to improve coverage and efficiency.
- Integrated automated testing into CI/CD pipeline, enabling continuous testing.
- Led QA and product delivery support for enterprise-scale chat and ticketing systems.

PROFESSIONAL EXPERIENCE

QA Engineer Specialist / Product Team Lead

PT Lincah Cipta Harapan (formerly PT Digital Laskar Pelangi / Orderfaz)
Bandung, Indonesia | Jun 2024 – Present

- Led a team of 5 QA engineers in testing an enterprise-scale chat and ticketing system.
- Drove product quality and feature delivery by leading requirement reviews, impact analysis, release planning, and collaboration across Product, Engineering, QA, and Customer Support teams.
- Led product planning and requirement discussions, translating business needs into actionable specifications while coordinating cross-functional teams to deliver high-quality software releases.
- Defined regression testing strategy, reducing defect leakage by 70%.
- Built and maintained Cypress automation framework and reusable automation scripts for repetitive scenarios.
- Executed functional, regression, API, and performance testing for critical product flows.
- Created detailed test cases, validation scenarios, and requirement traceability to align implementation with business needs.
- Reviewed UI/UX implementation for usability, consistency, and product acceptance readiness.
- Integrated automated testing into CI/CD pipelines, monitored pipeline results, and debugged failures.
- Supported troubleshooting and root-cause analysis to improve release stability and system reliability.

Quality Assurance Engineer

PT Rahmat Tuhan Lestari
Bandung, Indonesia | Dec 2021 – Jan 2023

- Performed manual and automation testing for software releases.
- Designed and executed test cases for new features.
- Conducted API testing to validate backend services.
- Collaborated with developers to ensure feature stability.
- Identified bugs early to improve product reliability.
- Handled customer issues and provided technical support.
- Managed customer data and database accuracy.
- Trained users for software onboarding.

Administrative / Customer Service Staff

Klinik Utama Elim

Bandung, Indonesia | Mar 2019 – Mar 2021

- Handled customer inquiries and operational workflows.
- Managed financial transactions and ensured accuracy.

Design Editor

Mentari Offset

Bandung, Indonesia | Feb 2017 – Feb 2019

- Prepared and validated print layouts for production.
- Ensured design accuracy and quality control.

EDUCATION

Bachelor of Information Systems (In Progress)

Universitas Terbuka (UT) | 2019 – Present

LANGUAGES

- Indonesian — Professional Working Proficiency
- English — Professional Working Proficiency
